

 Predator™

AirStrike

Predator Air Strike^[1] is the most efficient aerial cold fogging system. The only spray system on the market specifically designed for adult mosquito control.

What makes Predator Air Strike different from any other spray systems? Predator Air Strike produces the optimum droplet size to kill adult mosquitoes, 8 microns,^[2] resulting in the maximum use of product, which means reduced impact on the environment and non targets insects.

Air Strike can be used on:

- **Airplanes**
- **Helicopters**

Contact us today on how we can customize your equipment to use Air Strike today.
